Capital and accumulation, \$650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed in all its operations.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium. The directors are required to be peculiarly interested in the company, and they give their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties. Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

Highly Important to Farmers.  
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.  
THE MADISON MUTUAL,  
LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies. All losses promptly paid at the office as soon as proof is made to the satisfaction of the company.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses any year, and of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stoves, taverns, mills, shops and such like property. In this company such property is rejected positively, by LETTERS FROM AGENTS.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

THE MORALS OF MEXICAN GENERALS.—Gen. Avalos disgrace by being reduced to the ranks for the crime of bigamy, has been confirmed. His second wife, whom he married by proxy, in the early part of 1852, was the daughter of the late general Sanchez, and is a lady universally esteemed for her accomplishments and virtue. It is now said that the unhappy lady, in despair, committed suicide. This man, Avalos, commanded in Matamoros during the exciting filibuster troubles in October 1821, and for his defense of that place he was promoted to the rank of full brigadier-general, received the thanks of congress, and a cross of honor from the then sovereign state of Tamaulipas. Such is life; and such appears to have been the end of a "fast man." It is strange that the present ruler of Mexico should in 1854, punish in such an exemplary manner a crime in one of his subordinates that he has been in substance, guilty of himself. In February, 1836, Don Antonio Lopez de Santa Anna, as president of Mexico, commander-in-chief of operations against Texas, entered San Antonio de Bexar. There lived at that time, in La Villita, close by the memorable Alamo, on the banks of San Antonio, a young, frail, unsuspecting daughter of Eve, whose only fortune was her fair name and fine appearance. She was pleasant to look upon. In my youthful days I knew her well. The chief of the militia host saw her, and unable to corrupt her, had one of his own officers dressed in the garb of a priest, who performed the marriage ceremony. Years elapsed, and when Santa Anna returned to Mexico, crowned with the laurels he had gathered on the field of San Jacinto, he married his victim to a colonel in the Mexican arms.

MEMORIAL MIGRATION.—Dr. Bascom late editor of the Ohio State Journal is traveling in Nebraska and Kansas, and in one of his recent letters says:

Between Kansas and Westport we passed an encampment of 3,000 Mormons who were on their way to the great Salt Lake. They were waiting for the balance of their company, and had been encamped there for several days. They were in a fine forest. Some were sleeping in their wagons, but the most of them had tents, and the woods and fields adjoining, in all directions, were covered with these white and fragile dwellings. Oxen are used for teams. Men, women and children were scattered about all sides. Blacksmiths' hammers were heard, and the hum of preparation came up from all parts of the camp. It was a singular sight, and fraught with many suggestions and reflections upon this strange and deluded people. These emigrants are generally from Europe, and the most of them do not speak a word of English. They have a long journey before them. The cholera is said to be among them, but I have heard so many rumors of this disease out west on the rivers, &c., and have seen so little of it, that I have lost all confidence in the truth of these stories.

THE HORRORS OF THE BALTIMORE RAILROAD ACCIDENT.—The large number on the train, and the violence of the collision rendered it one of the most murderous railway disasters that ever occurred. Among the incidents it is related:

On all the platforms of the wrecked cars the destruction of life and limb was immense, and the cars being so closely wedged together it was utterly impossible for more than an hour to relieve any of them, although the screams of the sufferers caused the most superhuman exertions for their succor.

On the platform at the head of the excursion train, four men were caught by the fore part of the engine, two of whom were instantly killed, and the other two were fast by their limbs, suffering the most excruciating agony, and almost roasted by the smoke pipe of the locomotive. They both fainted from exhaustion before they could be rescued, requiring more than an hour of incessant labor, and one of them subsequently died.

Benjamin Merryman, the barge master, met death standing manfully at his post at the brake, endeavoring to check the destruction.

A powerfully built man, one of the men connected with the engine, was drawn out from the ruins at seven o'clock, with severe bodily injury, but the moment he was relieved from the pressure he became insensible, and in his dying agonies his body fairly bounced from the earth.

TOWN SITES IN NEBRASKA.—We know of no region where so beautiful a situation for towns and cities may be found as in Nebraska.

On the Missouri river, the bluffs are bold and commanding; and upon the high, beautiful eminences, water, the purest and sweetest, may be found abundant. The site of Omaha City, opposite Council Bluffs, is among the finest in the territory. Bellevue, ten miles below, is another beautiful situation. Winter Quarters, the same distance above, is hard to be excelled, and still higher up the river, there is the site of old Fort Calhoun, and other fine points for towns, to say nothing of several pretty locations below the mouth of the Platte. Omaha City and Bellevue are certainly two of the most advantageous locations for cities that we have ever seen. The former is expected to be the future seat of government for this new and promising territory. Those who are visiting our city, should not fail to extend their tour to these places.—*Council Bluffs Eagle*.

THE MAINE LAW ON ITS NATIVE SOIL.—The almshouse of Portland was built when the city contained about 10,000 inhabitants, and at 25,000, it was densely crowded. The authorities were considering the erection of a new one, to cost not less than \$50,000. But after the Maine law had been in operation a few months only, ranges of apartments were empty there; and the establishment as it now stands will be sufficient, under a vigorous enforcement of the Maine law, until the city shall contain 100,000 inhabitants.

Near Dore writes to Hunt's Magazine.

At the time of the enactment of the Maine law, the number of open rum-shops in Portland was estimated to be from 300 to 400; now there is not one! The keepers of the secret rum-shops have a few well-known customers, and no stranger is admitted. These shops contain but small quantities of liquors, and are fitted up with an apparatus which, on touching a spring, will smash the bottles containing them, that they may not be seized by the police.

The pay of a French soldier is nine and a half cents a day, finding him food, or what is the same thing, with food and two cents a day for pocket money. Chevalier in his notes on America, says an American boy 18 years of age, gets more pay for his labor than a captain in the French army. The American army is the most expensive in the world, and it would beggar the most wealthy nation in the world to keep such an army as France has often done and pay them as United States officers and soldiers are paid.

INGENUOUS.—It is related that old bishop Ayer, on a certain occasion, seeing his congregation pretty generally asleep, took his Hebrew bible from his pocket, and read a chapter, which roused attention, when the old minister rebuked them for sleeping when they might have understood him, and listening when they knew not a word he said.

**The Daily Gazette.**  
FRIDAY MORNING, JULY 14, 1854.

An important error occurred in the report of the Badger State bank, published yesterday. We republish it, corrected.

A TRI-WEEKLY.—There are many of our friends in neighboring towns who would like to take the Daily Gazette, yet as they only have a mail three times a week, they could hardly afford to take it and receive it only every other day. For the convenience of such we propose to issue a tri-weekly edition containing all the reading matter of the daily, to be afforded at \$3.00 a year. Will those who would like such an arrangement take a little pains to ascertain what number of copies would be taken at their respective post offices, and inform us by mail. The news from Europe is of an interesting nature; the elections in many of the states are nearly at hand, and those who would keep up with the times will have to look well to the papers. There is no medium for those living in the neighborhood of our city by which so late dates can be obtained, as through our columns. Let us have a prompt response to the proposition, and if favorable, we will act with equal promptness.

One effect of railroads is to root out a vast amount of jealousy and ill-feeling between rival points in a state. When a day or two apart, and accessible only by the "slow and tedious" mud wagon, people don't circulate, and a "lick ahead" at any place, creates little rivalries and small feuds. Connect by rail, and citizens "just step across" to see for themselves. They speedily get acquainted, find out the "good fellows," and learn that in the long run every place thrives according to its local advantages, and hot-house don't win. Janesville, Madison, and Watertown have indulged in a little good natured rivalry for a few years past in seeing which could cast most votes at the annual elections. All three now have, or soon will have railroads. Madison started late, but she is rapidly "pulling up." Janesville and Watertown are a little ahead of us, and about "neck and neck" with each other. Our township, being mostly covered with lakes, places us in the back-ground in respect to populated territory, putting the onus of voting on to the village. Another year, we think will show these three places about even.—*Madison Patriot*.

There never has been anything like "jealousy or ill-feeling" on the part of Janesville, towards either Madison or Watertown. Those places have never been regarded as rivals. Their interests are nearly identical, but they are too far apart to interfere materially with each other's trade. As to the number of votes cast, it is no very sure criterion upon which to judge of the thrift or business prospects of a place. However, if either of these thriving towns wish to compare notes, in this particular; in actual population, or in the amount of business and trade, Janesville will not be found backing out.

We know nothing of the merits of the case in the recent removal of Professor Daniels as state geologist. We have little acquaintance with him, but have always regarded him as a young gentleman of considerable promise. That he is ardently devoted to the science of geology and is well versed in it, we fully believe. We copy the following upon this matter from the Madison Patriot, without wishing to endorse all its ideas, or believing that the reasons there given for his removal are the true ones. We trust there will be some authoritative explanation of the matter:

Prof. E. Daniels, state geologist, has been removed, and J. G. Percival, the distinguished poet and scholar, appointed in his place. We should be sorry to believe the reason assigned for his removal—that he was a whig—was the true one. If there is any such thing as whig geology, or democratic geology, the dividing line has escaped our notice. We rather think the removal was made as an example to young men of the state, showing the kind of encouragement they are to expect for devoting a number of years to the acquisition of knowledge peculiarly useful to the state. The public will be the greatest sufferers by the change.—Not that Mr. Percival is not fully competent, but that all the data already collected—sufficient for a volume—and all the drawings, maps, specimens, &c., thus far collected, as well as the expense incurred, will be lost. Nor are we entirely satisfied with the time selected for this removal. If made while Prof. D. was here, during the winter or spring, there might have been a plausible pretext; but to do it while in the midst of his labors, far up in the wilds of the north-west, where he may not hear of it for weeks, does not look like fair or decent treatment.

Prof. Daniels has probably done as much or more than any other person to awaken an interest in geological studies in this state. Young, active, full of enthusiasm in the pursuit of his profession, of retentive memory, a close observer, and untiring worker—fully competent to the task, and a noble ardor to perfect it satisfactorily—now far away in the northern wilds, exposed to all the vicissitudes of the weather and the incidents of frontier life—after having accomplished but a part of his survey he is turned out because it is said his politics don't suit! On the whole, we don't think the reason quite sufficient.

Mr. Percival is one of the few great poets of the age, and worthy of any honor the state could confer. We are gratified to learn that one so gifted has received the appointment; conferring thereby more honor than he receives. That his work will be well done need not be doubted, if he has the physical endurance to stand its fatigues. The compensation, however, is beggarly; and scarce pays the necessary expenses.—It is within our knowledge that, including outfit, Prof. D. did not make a dollar last season, and we give notice that we shall advocate better pay to his successor.

The general appropriation bill has passed the house of representatives. \$530,000 are appropriated for the New York assay office and \$160,000 for the completion of marine hospitals at Cleveland, Chicago, Louisville, Paducah, Evansville, San Francisco and Vicksburg.

DROWNED.—Two daughters of Fred. Barckert, postmaster at Manitowoc Rapids, were drowned in the river at that place, while bathing, on the 5th.

We take the following from Ford's History of Illinois, an interesting work lately published by S. C. Griggs & Co. of Chicago. Mr. Frederick Adolphus Hubbard, a candidate for Governor in 1826, on one occasion addressed the people as follows:

FELLOW CITIZENS:—I offer myself as a candidate before you for the office of Governor. I do not pretend to be a man of extraordinary talent, nor do I claim to be equal to Julius Caesar or Napoleon Bonaparte, nor yet to be as great a man as my opponent, Governor Edwards. Nevertheless I think I can govern you pretty well. I do not think it will require a very extraordinary smart man to govern you; for to tell you the truth, fellow citizens, I do not think you will be very hard to govern, no how."

On another occasion while the same gentleman was a member of the legislature, a bill for paying a bounty on wolf scalps was pending. Mr. Hubbard rose and said:

"Mr. Speaker—I rise before the question is put on this bill, to say a word for my constituents. Mr. Speaker, I have never seen a wolf. I cannot say that I am very well acquainted with the nature and habits of wolves. Mr. Speaker, I have said that I have never seen a wolf. But now I remember that once on a time, as Judge Brown and I were riding across the Bonpas prairie, we looked over the prairie about three miles, and Judge Brown said: 'Hubbard! look! there goes a wolf!' and I looked, and I looked, and I looked, and I said, 'Judge, where?' and he said there; and I looked again, and this time, in the edge of a hazle thicket, about three miles across the prairie, I think I saw the wolf's tail. Mr. Speaker, if I did not see a wolf this time, I think I never saw one. But I have heard much and read much about this animal. I have studied his natural history.—By-the-by, history is divided into two parts: there is, first, the history of the fabulous, and secondly, of the non-fabulous or unknown ages. Mr. Speaker, from all these sources of imagination, I learn that the wolf is a very noxious animal; that he goes prowling about, seeking something to devour; that he rises up in the dead and secret hours of the night, when all nature reposes in silent oblivion, and then commits the most terrible devastations upon the rising generation of hogs and sheep. Mr. Speaker, I have done, and return my thanks to the house for their kind attention to my remarks."

The members were undoubtedly convinced by this speech, either in favor or against the bill, it is difficult to determine which.

WHEAT CROP.—We hear a rumor that the wheat fields in neighboring Wisconsin are badly afflicted with the rust.—*Galea Gazette*.

This may be true of the western portion of the state, but we have heard nothing of the kind in this vicinity. The weather until yesterday has been extremely favorable for a week past. The showers and hot sun of yesterday may do damage, but we trust not.

ESCAPE AND RE-CAPTURE OF STERLING.—Sterling, indicted for mail robbery, left town in somewhat of a hurry yesterday, about an hour before his case was called for trial. He was at large, under bail of \$5,000, his brother, ex-senator Sterling, being his security. He was promptly pursued by deputy marshal Cotton, apprehended some 20 miles from town on the Arena road, brought back and committed to the county jail. This morning his bail was remitted by the court, and he was taken permanently into custody.

The trial of Sterling took place this morning. The case was given to the jury about 10 o'clock. After a short absence they returned with a verdict of guilty. Sterling was prosecuted by Mr. Sharpstein, and was defended by Judge Dunn.—*Madison Argus*.

DRAINING LAKES AND SWAMP LANDS.—Indiana is doing a great work of internal improvement, aside from those usually engaged in by other states, which must be of vast ultimate importance. It is no less a work than this:

There is much land in the state which is subject to annual inundation, either from the want of proper outlets to the lakes or rivers, which have been obstructed by drifts of timber or beaver dams, or from the natural formations of the country. All this is to be drained by the widening of the natural channels or the excavation of new ones.

Beaver lake, in Jasper county, some twelve miles long and in places eight or nine miles wide, with indented shores, and covering nearly a hundred square miles, enough for three good townships, and in wet times overflowing as much more, and having no natural outlet, although the reservoir of several small streams, is to be drained by an artificial canal thirty feet wide, and of sufficient length and depth to carry off the entire body of water. It is supposed the whole bed of this lake will make rich arable lands and that the drained lands, by the improvement of health and by inducing settlements and cultivation, will soon return in taxes to the state coffers the whole expense of drainage, to say nothing of the ultimate object of all political economy, the increase of a brave, intelligent and industrious population.

THE RAILROAD BILL.—In the daily Democrat of Saturday we have the gratifying intelligence that the Minnesota railroad bill has passed the senate, and as a similar bill has once passed the house, the prospect is now very encouraging indeed. This bill is so worded, that the charter given by the Minnesota legislature last winter cannot control the grant. There will therefore be another chance the coming winter to make a bargain for a railroad, and it is devoutly to be wished that the folly of the past winter may not be re-enacted. There was a deal of hurry and fright then which will not exist next time, as long before the meeting of our legislature the grant by congress will be a fixed fact and we can dispose of it in cool blood. Mr. Rice is a most indefatigable worker for the interests of Minnesota, and we are glad he has been so successful in the face of most formidable obstacles.—*St. Anthony Democrat*.

THE SCHOOL LANDS.—The Wisconsin Patriot charges, that, after the semi-official announcement that Mr. James Ludington had purchased all the school lands, and all further sales refused, that parties are sent out to select all the best school lands, and after entering those, they rejected the poorer lands, and that now these poorer lands are for sale again. We hope there is some mistake about this, for it is a little too barefaced a proceeding.—*Free Democrat*.

SUN STRUCK.—On yesterday, about 2 o'clock, a man fell down on Randolph street, near Wells under the effects of a coup de soleil. We did not learn his name. Our citizens cannot be too careful, during the present excessive heat, to avoid accidents of this kind. By adopting the precaution we mentioned the other day—a wet handkerchief placed in the crown of the hat—all danger of a sun stroke may be entirely avoided.—*Chicago Trib*.

ON THE FOURTH.—The conductor of the Galena and Chicago Union Railroad, for some good reason, no doubt, put a man named Mathew Hograff off the cars. To revenge himself upon the road he laid an iron rail across the track, but fortunately for him and the passengers the cow-catcher knocked it off thus preventing an injury to life and property. He was arrested yesterday and bound over by the mayor for further examination in the sum of \$4,000. Too much credit cannot be given for this prompt arrest, and the mayor did his duty when he fixed such exemplary bail, for the offence should be ranked equal to that of murder.—*Young America*.

THE MASS CONVENTION.—This body will meet here on Thursday. The indications are that it will be the largest political gathering ever seen in the state, and our hotel keepers should be making proper arrangements for their accommodation. From the statements of our neighbor over the way we should judge that pretty extensive preparations have already been made. He seems to think the convention will be so large that its members will be compelled to levy contributions for bed and board upon private families. Well, we should not be surprised.—The hotels will unquestionably find it impossible to accommodate anything like the whole; and where private families have room they may be called upon to furnish lodgings for a portion of the delegates for one night.—*Madison Journal, Tuesday*.

SAN OCCURRENCE.—On Friday afternoon last a dispute arose between Mr. Hicheox of the St. Paul drug store and a drayman by the name of Peltier, in regard to paying for some drayage. Peltier attempted to carry back to the landing a box belonging to Hicheox, because the latter would not pay for hauling it, he not having ordered it to be hauled. A scuffle ensued, during which Mr. Hicheox seized an axe and struck or attempted to strike the drayman, who drawing an iron bar from his dray, struck Mr. Hicheox a heavy blow, badly fracturing his skull. He yet lies in a critical condition, though hopes are entertained of his recovery. Mr. Peltier was arrested, but the examination was adjourned for a few days.—*St. Anthony Democrat*.

In Baltimore a Hebrew woman who was supposed to be dead was dressed in her shroud, placed in her coffin and the lid was about to be screwed down, when it was discovered that life was not extinct. All present immediately gathered around the coffin, and the enshrouded corpse like form arose from her narrow bed, and embraced her children and relatives with all the fervor of renewed life. To all appearances she became convalescent, and subsequently partook of food. She remained in this condition until the approach of night, when she tottered to the bed and in a few moments breathed her last.

COMMON SCHOOLS.—In an oration at Williams college, Mass., Hon. Edward Everett once said:

"I would rather occupy the bleakest nook of the mountain that towers above us, with the wild wolf and the rattlesnake for my nearest neighbors, with a village school, well kept, at the bottom of the hill, than dwell in a paradise of fertility, if I must bring up my children in laziness, pampered, self-sufficient ignorance."

THE TIME OF EMIGRATION.—The following is a correct return of the number of foreign emigrants, who have arrived at the port of N. Y. during the last month (June):

Germans,	11,117
British,	19,850
French,	7,900
Spanish,	79
West Indians,	277
Total,	39,333

FEMALE POSTMASTERS.—The number of females at present holding the office of postmaster in the United States is 128. They are appointed, give bonds, are commissioned, and receive the same compensation for their services as other postmasters. Unmarried females only can hold the office of postmasters.

GREAT PRODUCT FROM SHEEP.—There may be seen on the farm of D. O. Bissell in Byron, Fond du Lac county, a flock of forty-eight sheep, forty-five of them ewes, which have raised forty-four lambs the present season, and have sheared two hundred and fifty pounds of well washed wool; being an average of 3-16 lbs per head.—*Fond du Lac Union*.

RAILROAD VOTE.—The citizens of Peoria by an almost unanimous vote, 539 to 29, have decided to subscribe seventy-five thousand dollars more to the capital stock of the Peoria and Oquawka railroad, which swells the subscription in Peoria to \$250,000.

We learn by passengers from St. Louis, that the cholera is prevailing in that city to an alarming extent. The disease is said to be epidemic and malignant. It is to be hoped that the report is exaggerated, or that the attack will be of short duration.—*Galea Jeffersonian*.

We are pained to learn of the sudden death of James H. Collins of our city, at Ottawa. Mr. Collins was at Ottawa on Friday and argued a case before the supreme court which occupied the whole day. At 7 o'clock on Saturday he was a corpse. The cause of his death, we learn, was apoplexy.—*Chicago Young America*.

THE SMALL POX.—Much alarm has been manifested by our friends in adjoining towns, in consequence of the existence of the small pox in this place, and several exaggerated reports have been put in circulation. We can assure our friends there is no cause of alarm. There has been no new cases within the last 12 days—the disease is now evidently checked—and no fears are entertained of its further spread, the only two existing cases are so far recovered as to be considered out of danger.—*Monroe Sent*.

An English paper mentions the case of a robber who committed suicide to avoid capture.—A woman, attracted by curiosity to behold the body, shrieked and fainted—it was her husband. The neighbors were sent for, and all recognized it as the body of her husband. It was carried to her house—at the threshold of the door, the corpse, the pallbearers, the weeping widow and neighbors met the husband alive and in perfect health!

Considerable excitement was caused on the fourth by the rumor that the order of the north would march in procession down the tracks of the Michigan Central railroad to the old depot. An anxious crowd of Irishmen and others lined the lake shore for some time, armed with shillalabs, but finally came to the conclusion that their informants knew nothing about it.—*Chicago Trib*.

CROPS IN DODGE COUNTY.—The Beaver Dam Republican says that the crops, especially those of grain, look well in that vicinity, and promise an abundant yield. The only fear entertained is that the growth may be too large, causing the straw to lodge, diminishing the chances of the berry filling well, and increasing the labor of the harvest.

NEW YORK MONEY MARKET.—The Mirror, of Saturday, the 8th, reports the stock market as animated, prices 2 per cent. better, and no further failures reported. It adds:

"The tide has turned in Wall street; the breakers are passed, the clouds are clearing away, and there is now to be seen in the financial future naught but sunshine and clear weather."

"The bears are taking in their stocks freely, and the money market is letting up considerably. We may expect smooth water next week in all financial matters."

SUDDEN DEATH.—Thomas Dervin of Clyman, was on the 28th ult., found dead in a field a short distance from home. The day before he went out to hunt cattle and not coming back search was made for him, and next day he was found dead as stated. It is supposed that he was attacked with an apoplectic fit or was sun-struck. His remains were brought here and interred in the catholic burial ground, followed by a large concourse of friends and neighbors. Mr. D. was about 60 years of age.—*Watertown Register*.

A certain fast man of this city sat up the other night all night enjoying a small game of "draw." As a matter of course, next morning he was tolerably sleepy, and while about half asleep at the breakfast table, the servant asked him what he would have. He put the table in a roar, by answering "draw cards."—*Miss Free Trader*.

"Too Old."—The Sunday Atlas, in a fit of revolutionary enthusiasm, says: "Hurrah for the girls of '76!" "Thunder!" cried a Jersey whig, "that's too old! No, no, hurrah for the girls of '17!" The New Jersey whig got all to shout with him, we are told, and the old women about his ears.

CONSOLIDATED DEBT OF PHILADELPHIA.—At a meeting of the city council of Philadelphia, a proper committee reported the debt of the consolidated city to be \$10,000,000. As an offset, however, the municipality owns some \$9,000,000 in railroad stock.

At a social party one evening, the question was put up, "what is religion?" "Religion," replied one of the party, "is an insurance against fire in the next world, for which honesty is the best policy."

A German almanac remarks that a young girl is a fishing rod; the eyes are the hook, the sweet smile is the bait, the lover is the gudgeon, and marriage is the butter in which he is fried.

**GREAT SALE OF REAL ESTATE!**  
Rare Chance for Investment!  
600 Village Lots!

THE undersigned offers at private sale SIX HUNDRED VILLAGE LOTS, situated on "Hickory Glen" and "Pike & Shaw" addition to Janesville, and located in the immediate vicinity of the Milwaukee and Mississippi railroad depot, in the city of Janesville.

The above property is but a short distance from the present business center of the thriving city of Janesville, and towards which, through the influence of the various railroads, in operation and projected, the business of the city is fast finding its way.

It is unnecessary to speak of the peculiar advantages of an investment in a property so centrally located in the largest inland city in the State of Wisconsin—a city so widely known for its thrift and business prosperity, possessing extensive water power, and situated on the most favorable terms to the farmer who wishes to make immediate improvements on purchases.

Also, 1,000 Acres of the Best Improved Farming Lands, situated within a few miles of the city, which will be sold in lots to suit purchasers, from 40 to 200 acres.

For particulars enquire of the undersigned at "Pike & Kimball's Hardware Store," or of THOMAS SHAW.

**Gray's Lining, Leather Belows and Paper Mache Work.**  
MRS. LA DOW and MISS WINTERS have taken rooms for a few days at Mrs. Strecker's residence, on Main street, near the corner of Milwaukee street, and will give lessons in the above branches of useful and ornamental work.

Pupils will be received and thoroughly instructed in either or all of these branches, and the terms will be satisfactory. Materials furnished, and pupils allowed to retain the pieces upon which they are instructed. Usually, these pieces will of themselves, if sold, more than pay the cost of tuition.

An examination of specimen work is respectfully invited.

**BELOIT COLLEGE COMMENCEMENT.**—We learn that the exercises on Wednesday were well attended and of an interesting character. The salutatory oration, in Latin, was pronounced by Harlan N. Page, of Platteville, and the valedictory by James A. Brewster, editor of the Beloit Journal. The orations throughout were creditable productions. The one by Joseph Collie, upon "the peculiar incentives to intellectual effort in the west," is spoken of in particular as well written and well delivered.

At a meeting at Stockbridge, Calumet county, on the 8th, for the purpose of choosing delegates to attend the Madison convention, after the choice of the delegates, the following resolution was unanimously adopted:

Whereas: Several suspicious persons have been prowling about this county, for the last ten or twelve days, in pursuit of fugitives from oppression; therefore

Resolved, That we disclaim any law making human beings chattels, and any attempt to carry such a law into effect, in our county or neighborhood, cannot be successfully accomplished, unless done by sacrificing the lives of our citizens.

The Japan treaty was sent into the senate today, the house investigating committee into charges of bribery in connection with Colts patent were progressing with their labors.

The investigation caused no little fluttering. Senator Jones of Iowa reported a bill on committee, on pensions in favor of granting a pension to the widow of James Batchelder; he stated that the committee were about equally divided upon the subject. Senator Sumner of Mass., submitted a minority report. Senator Rusk introduced a resolution as the session was drawing to a close, it hereafter meet at 11 A.M., instead of 12, laid over. The senate then took up the homestead bill.

House. Kidwell, of Virginia, presented memorial from Wheeling bridge company, asking investigation of charges against Judge Grier; referred to judiciary committee. May, of Maryland, submitted a memorial for aid in the prosecution of their labors—referred to select committee of 11. The bill making appropriations for river and harbor, reported from committee of the whole yesterday was then taken up; the amendments to the same in committee were taken up and agreed to, and the bill was passed by ayes 96 yeas 76. House then went into committee of the whole on army appropriation bill.

Concord, N. H., July 12th.  
The house passed liquor bill 155 to 105. The senate will reject it.

Washington, July 13th.  
The senate yesterday in executive session, ratified the extradition treaty with Bavaria. The committee upon foreign relations have reported the fishery and reciprocity treaty unanimously without amendment.

**HARDWARE,** Wholesale & Retail,

SIGN OF THE LAW, MAIN STREET, JANEVILLE.

THE SUBSCRIBERS, in returning their thanks to the numerous patrons for past favors, and soliciting a continuance of the same, would respectfully inform the public of Central and Western Wisconsin, that they have now in store, and offer for sale, at the lowest cash prices, a larger and better selected stock of

**Heavy and Shelf Hardware, Bar Iron, Steel, Nails, Stoves, &c.,**

than can be found in any other establishment in the interior of the State. The attention of Consumers, and Country Dealers is particularly invited to our immense stock of

AMERICAN, ENGLISH IRON, SWEDISH IRON, CAST, GERMAN, ENGLISH, AMERICAN BLISTER, TOE CALK, SPINDING, CO. CAST PLOW STEEL, &c., all sizes. Also to the almost endless variety of superior

Carpenter, Joiner, Cooper, Blacksmith, Wagon-making and Farming Tools, House Trimmings, Chains and Chain Pumps, Leg Pipes, Cut and Brought Nails and Saws, Tin Ware, Tinners' Stock, Britannia and Japanned Ware, Table and Pocket Cutlery, Shears, Scissors, Razors, &c.

**Cook and Parlor Stoves** never larger than at present, and comprises some forty different patterns selected with great care, having been previously fully tested in this market, on several of the best manufactories in Troy and Albany. Having bought them on long time, without interest, and at a great discount, they are enabled to sell them successfully for cash, of which we will convince all who may give us a call.

Our stock of TIN WARE constantly on hand, or manufactured to order. We are agents for the sale of Duryee & Foy's celebrated Fire Proof Safes and Platform and Counter Scales, and also for the sale of Yale's Magic Bank Safe and Store Door Locks.

**AGAIN & AGAIN**

**THE BOSTON STORE.**

**Let the Horn be Blown!**

"Sound the loud trumpet of war and of sea," WHEELLOCK'S trumpet, and ever shall be.

THIS is the middle of the nineteenth century, the first half of which has produced more change and movement than any fifty years of our Christian Era.

The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age.

It has been well said by an ancient writer that "Man wants but little here below," and to supply those wants

**WHEELLOCK** Announces to every people and every tongue, to both sexes and to all parties, to all sections of all gauges, that finding his old store entirely

**TOO SMALL!** He has been compelled, in order to be able to supply the immense call for goods at his establishment, to

**Double the capacity of his Store Rooms!** Having purchased this spring, for this market, to be sold this season,

**\$39,007 00 Worth of Goods!** But who can expect to read in the brief space of one life all the articles that the

**BOSTON STORE CONTAINS.** Indeed, history must fail to give the searcher of knowledge any accurate idea of his immense

**STOCK OF SUMMER GOODS,** His inimitable selection of

**Fancy Dress Goods!** He has over

**10,000 Yards of Silk Barges,** of every style and price, and it is with no great difficulty that the fair damsels of this fair valley can select

**FROM ONE THOUSAND PIECES.** Of all patterns and ranging in price from SIX CENTS per Yard to Twenty-Eight Cents, such dresses as will add to their exquisite beauty, though it may as a general thing, be as well to add to that beauty as it is to "glide refined gold, paint the lily, or add perfume to the violet."

It must not be inferred that we offer only these and the many other articles for winter apparel, such as Chamois and Foulard Silks, but all manner of

**Cotton, Grass and Linen Goods** are on hand, so that every one may be entirely accommodated with every article of female apparel—Eved French red foxed Gaiters, do do wolffed do

**LADIES' MOROCCO POLKAS,** And all the articles manufactured of the best styles—So that of this store, so far as articles which adorn La Belle sexe are concerned, it may be truly said

"CUSTOM cannot dole the infinite variety." While the Boston Store has made provision to protect the feet, it can also boast that it has all sorts of

**GLOVES,** by which hands can be protected and retain

"The white wonder of fair Juliet's hand." And in taking leave of those of whom it is no exaggeration to say they are

"The nonpareils of beauty, the Paragons of perfection, Mr. Wheelock assures his fair customers that his assistants and auxiliaries are those who unite great knowledge of the business, fine personal presence, and affability of manner to a determination to discharge conscientiously their several and respective duties; that while they may have the proper desire to effect sales, they will never in imitation of many of our contemporaries attempt to accomplish that object by equivocation, misrepresentation, exaggeration, tergiversation, fabrication, or by direct lying.

And now to the wants of the

**COARSE-HAND SEX.** Mr. Wheelock has every kind of material to make those articles of dress that give to man his individuality—

**PANTALOONS,** CALF "DEWTS," COW HIDE DO., GAZELLE, do., PATENT LEATHER DO., GIRAFFE do.,

**HATS** That fit every head from the Websterian brow to the country politician's, from the size of caput of him who is closely shorn after the Hibernian fashion to that of him who wears the well-pomaded, ambrosialized, elongated Hyperborean.

And to the spectator who buys to sell again,

**The Boston Store** Can, at lower rates of usance than any other establishment west of the Alleghany mountains, furnish that class of exchanges to their riches will fill their pockets as water fills the sea. And to them we offer

**DOMESTIC GLASSWARE,** WORSTED, Pocket Handkerchiefs, Inkstands, Cotton Yarn, Ready-made Vests, Ground Pepper, Flannels, Looking Glasses, Ready-Made Over Coats, Pants, Raincoats, Flat Irons and Cotton Batting, Lanterns, Batches, which the whining school-boy with shining morning face bears on his arm,

Chests, Norwegian Bandboxes and Hair Trunks, Tea, Tobacco and Wicking.

In the

**CROCKERY** Line may be found the BENNINGTON, the PARIAN and the LAVA Manufacture, Pitchers for milk or water, Bed Pans for males or females, Pots for tea or chamber purposes, Spittoons, Bowls for washing, for bread and milk, or sugar, Candy-dishes, children's Toys and Flower Pots, MAINE LIQUOR LAW VOLUMES and Lager Beer Mugs.

And in fine, the proprietor of this establishment can with all confidence assure those who have been in the habit of trading at Janeville that, although they have

"Often seen corruption boil and bubble till it o'erturn the stove,"

they will find that the representations which shall be made to them by that proprietor or his clerks will not stand like forgeries in a Barber shop,

More in mock than mark!

**The Empire Drug Warehouse.**

WHOLESALE AND RETAIL, ESTABLISHED 1845!

THE OLDEST DRUG HOUSE IN WISCONSIN.

Holden & Kemp, 1845.

**THE UNDERSIGNED** have the pleasure of again greeting their old friends and patrons with the fact that they are as usual to be found at the

**OLD HEAD QUARTERS,** The Great Regulator of the Drug Trade for the interior of the State,

**THE EMPIRE DRUG STORE.**

Having been engaged in the

**WHOLESALE AND RETAIL DRUG BUSINESS** here for years, we are supposed to be posted on all matters pertaining to the interests of the trade and our customers.

Our aim in the beginning was to sell

**Pure Goods at Fair Prices,** and having during a series of years witnessed the

"Rise and Fall" of men who endeavored to compete with this system, whose desire to delude the public with a bombastic advertisement was apparently their highest ambition, has more than ever convinced us that OUR system is the only one that can win.

In view of these facts,

**Our Spring Purchase** has been unusually heavy, in which nothing that enters in the most remote degree into our business has been omitted.

**DRUGS, FOREIGN & DOMESTIC,** GUMS, POWDERED ARTICLES, HERBS & EXTRACTS, including every article of the most pure and choice kind.

If Physicians will take the time to look through our Stock and examine minutely the quality of our Medicines and Preparations, they will not only find articles to suit them, but goods that can at all times be relied upon.

**Family Preparations and Genuine Patent Medicines.**

This department of our stock and assortment is unsurpassed. We have the *Sole Agency* for *Patent Medicines* of any value, and any article sold in the West can be found at our Store.

**FAMILY MEDICINES** and PRESCRIPTIONS compounded with great care, and put up at all hours of the day and night.

**Pain Oils, Glass, Varnishes, &c.** Of these leading articles we have an almost unlimited supply. Buying of first hands, for *Net Cash*, enables us to offer great inducements to Merchants and others who buy directly of us; and having worked into a

**Heavy Wholesale Trade,** in this class of goods, our stock will always be found the largest in the interior, and our prices by far the most desirable.

**FANCY ARTICLES & PEDLER'S GOODS.** To this part of our trade, which has involuntarily grown upon us, we have this spring given more than usual attention. Our assortment will be found desirable and prices satisfactory.

**DAGUERREAN GOODS.** A very large Stock of Cases and Lackets, of our own style and design, manufactured to order for our trade. Artists supplied with Chemicals and every thing pertaining to the business, at the lowest possible rates.

**PERFUMERY,** FRENCH, ENGLISH, AMERICAN & GERMAN. Including a large and most desirable Stock. Ladies and Gentlemen are requested to look at our Assortment, it is not surpassed by any House in the West.

Our time being of more value to our customers than in writing advertisements, we will only say in conclusion, that

**Every Article Pertaining to the Trade** can be found at our Establishment. In regard to prices, all who know with what superior facilities we enter the market, connected as we are with an extensive

**WHOLESALE HOUSE IN NEW YORK CITY,** must see at once that no establishment here can hope to compete with us, without either imposing upon their customers or sharing the fate of their predecessors.

Orders solicited, and Goods packed with the greatest care.

**Pure White Lead at \$2.25 per Keg!**

**TEN TONS NOW IN STORE.**

**FOR the remainder of the season Pure White Lead, ground in Oil, can be had at the Empire Drug Store in quantities to suit purchasers at the rate of Nine Dollars per hundred pounds. This is a lower figure than the article is sold at any other place west of Lake Michigan, and affords an opportunity for all to buy their *White Lead at net cost.* We have also a heavy stock of Zinc, Mineral and Fancy Paints, dry and ground in Oil, Patent Dryer, Glue, Varnishes, Brushes, &c., together with 1000 Gallons English and American Linseed Oil, all of which we are now offering at a fraction above cost.**

HOLDEN, KEMP & CO. 39  
Janeville, June 1854.

**Janeville Leather Store.**

THE SUBSCRIBER is almost daily receiving additions to his STOCK of

**Leather, Findings, and Saddlery Hardware,** from the Eastern Markets.

Those in the HARNESS and SHOE business can now obtain their supply of the best quality at the most beautiful and enterprising city, CHEAP FOR CASH, and save time, trouble and expense in traveling either to the Lake or further East.

It appears that some of our friends have had a sudden impulse of benevolence come over them for the people here and in this vicinity, but doubtless our citizens will discover what the rats did in the fable, that there was a cat in the white heat.

Also, received and receiving an extensive assortment of

**Boots & Shoes,** which are offered only at Wholesale, at prices 80 LOW, that all who wish to purchase, on examination will not hesitate to buy.

Location west side of River, on Milwaukee street, opposite the site of the Stevens House.

**Cash Paid for Hides and Skins.** Please to give me a call, and perhaps our city may not in some respects be second to Milwaukee.

**Assessors' Notice.**

NOTICE is hereby given that the assessment roll for the City of Janeville has been completed, and that the same may be examined by all parties interested, at my office over Jackson, Parker & Co's store, on the 20th day of July instant.

**MEXICAN MIGRATION.**—Dr. Bascom late editor of the Ohio State Journal is traveling in Nebraska and Kansas, and in one of his recent letters says: Between Kansas and Westport we passed an encampment of 3,000 Mormons who were on their way to the great Salt Lake. They were waiting for the balance of their company, and had been encamped there for several days. They were in a fine forest. Some were sleeping in their wagons, but the most of them had tents, and the woods and fields adjoining, in all directions, were covered with these white and fragile dwellings. Oxen are used for teams. Men, women and children were scattered about all sides. Blacksmiths' hammers were heard, and the hum of preparation came up from all parts of the camp. It was a singular sight, and fraught with many suggestions and reflections upon this strange and deluded people. These emigrants are generally from Europe, and the most of them do not speak a word of English. They have a long journey before them. The cholera is said to be among them, but I have heard so many rumors of this disease out west on the rivers, &c., and have seen so little of it, that I have lost all confidence in the truth of these stories.

**THE HORRORS OF THE BALTIMORE RAILROAD ACCIDENT.**—The large number on the train, and the violence of the collision rendered it one of the most murderous railway disasters that ever occurred. Among the incidents it is related: On all the platforms of the wrecked cars the destruction of life and limb was immense, and the cars being so closely wedged together it was utterly impossible for more than an hour to relieve any of them, although the screams of the sufferers caused the most superhuman exertions for their succor. On the platform at the head of the excursion train, four men were caught by the fore part of the engine, two of whom were instantly killed, and the other two were fast by their limbs, suffering the most excruciating agony, and almost roasted by the smoke pipe of the locomotive. They both fainted from exhaustion before they could be rescued, requiring more than an hour of incessant labor, and one of them subsequently died. Benjamin Merryman, the barge master, met death standing manfully at his post at the brake, endeavoring to check the destruction. A powerfully built man, one of the men connected with the engine, was drawn out from the ruins at seven o'clock, with severe bodily injury, but the moment he was relieved from the pressure he became insensible, and in his dying agonies his body fairly bounced from the earth.

**TOWN SITES IN NEBRASKA.**—We know of no region where so beautiful situation for towns and cities may be found as in Nebraska. On the Missouri river, the bluffs are bold and commanding; and upon the high, beautiful eminences, where the purest and sweetest may be found abundant. The site of Omaha City, opposite Council Bluffs, is among the finest in the territory. Bellevue, ten miles below, is another beautiful situation. Winter Quarters, the distance above, is hard to be excelled, and still higher up the river, there is the site of old Fort Calhoun, and other fine points for towns, to say nothing of several pretty locations below the mouth of the Platte. Omaha City and Bellevue are certainly two of the most advantageous locations for cities that we have ever seen. The former is expected to be the future seat of government for this new and promising territory. Those who are visiting our city, should not fail to extend their tour to these places.—*Council Bluffs Eagle.*

**THE MAINE LAW ON ITS NATIVE SOIL.**—The aims house of Portland was built when the city contained about 10,000 inhabitants, and at 23,000, it was densely crowded. The authorities were considering the erection of a new one, to cost not less than \$50,000. But after the Maine law had been in operation a few months only, ranges of apartments were empty there; and the establishment as it now stands will be sufficient, under a vigorous enforcement of the Maine law, until the city shall contain 100,000 inhabitants. Neal Dow writes to Hunt's Magazine.

At the time of the enactment of the Maine law, the number of open rum-shops in Portland was estimated to be from 300 to 400; now there is not one! The keepers of the secret rum-shops have a few well-known customers, and no stranger is admitted. These shops contain but small quantities of liquors, and are fitted up with an apparatus which, on touching a spring, will smash the bottles containing them, that they may not be seized by the police.

The pay of a French soldier is nine and a half cents a day, finding him food, or what is the same thing, with food and two cents a day for pocket money. Chevalier in his notes on America, says an American boy 18 years of age, gets more pay for his labor than a captain in the French army. The American army is the most expensive in the world, and it would be a great misfortune for France to keep up such an army as France has often done and pay them as United States officers and soldiers are paid.

**INQUISITIVE.**—It is related that old bishop Ayer, on a certain occasion, seeing his congregation pretty generally asleep, took his Hebrew bible from his pocket, and read a chapter, which roused attention, when the old minister rebuked them for sleeping when they might have understood him, and listening when they knew not a word he said.

**DOWNED.**—Two daughters of Fred. Barclay, postmaster at Manitowoc Rapids, were drowned in the river at that place, while bathing, on the 5th.

**SUN STROKE.**—On yesterday, about 2 o'clock, a man fell down on Randolph street, near Wells, under the effects of a *coup de soleil*. We did not learn his name. Our citizens cannot be too careful, during the present excessive heat, to avoid accidents of this kind. By adopting the precaution we mentioned the other day—a wet handkerchief placed in the crown of the hat—all danger of a sun stroke may be entirely avoided.—*Chicago Trib.*

**THE SCHOOL LANDS.**—The Wisconsin Patriot charges, that, after the semi-official announcement that Mr. James Ludington had purchased all the school lands, and all further sales refused, that parties are sent out to select all the best school lands, and after entering those, they rejected the poorer lands, and that now these poorer lands are for sale again. We hope there is some mistake about this, for it is a little too barefaced a proceeding.—*Free Democrat.*

We hope there is some mistake about this, for it is a little too barefaced a proceeding.—*Free Democrat.*

An important error occurred in the report of the Budget State bank, published yesterday. We republish it, corrected.

**A TRI-WEEKLY.**—There are many of our friends in neighboring towns who would like to take the Daily Gazette, yet as they only have a mail three times a week, they could hardly afford to take it and receive it only every other day. For the convenience of such we propose to issue a tri-weekly edition containing all the reading matter of the daily, to be afforded at \$3.00 a year. Will those who would like such an arrangement take a little pains to ascertain what number of copies would be taken at their respective post offices, and inform us by mail. The news from Europe is of an interesting nature; the elections in many of the states are nearly at hand, and those who would keep up with the times will have to look well to the papers. There is no medium for those living in the neighborhood of our city by which so late dates can be obtained, as through our columns. Let us have a prompt response to the proposition, and if favorable, we will act with equal promptness.

One effect of railroads is to root out a vast amount of jealousy and ill-feeling between rival points in a state. When a day or two apart, and accessible only by the "slow and tedious" mail wagon, people don't circulate, and a "lick ahead" at any place, creates little rivalries and small feuds. Connect by rail, and citizens "just step across" to see for themselves. They speedily get acquainted, find out the "good fellows," and learn that in the long run every place thrives according to its local advantages, and hot-housing don't win. Janesville, Madison, and Watertown have indulged in a little good natured rivalry for a few years past in seeing which could cast most votes at the annual elections. All three now have, or soon will have railroads. Madison started late, but she is rapidly "pulling up." Janesville and Watertown are a little ahead of us, and about "neck and neck" with each other. Our township, being mostly covered with lakes, places us in the back-ground in respect to population, territory, putting the onus of voting on to the village. Another year, we think will show these three places about even.—*Madison Patriot.*

There never has been anything like "jealousy or ill-feeling" on the part of Janesville, towards either Madison or Watertown. Those places have never been regarded as rivals. Their interests are nearly identical, but they are too far apart to interfere materially with each other's trade. As to the number of votes cast, it is no very sure criterion upon which to judge of the thrift or business prospects of a place. However, if either of these thriving towns wish to compare notes, in this particular; in actual population, or in the amount of business and trade, Janesville will not be found backing out.

We know nothing of the merits of the case in the recent removal of Professor Daniels as state geologist. We have little acquaintance with him, but have always regarded him as a young gentleman of considerable promise. That he is ardently devoted to the science of geology and is well versed in it, we fully believe. We copy the following upon this matter from the Madison Patriot, without wishing to endorse all its ideas, or believing that the reasons there given for his removal are the true ones. We trust there will be some authoritative explanation of the matter:

Prof. E. Daniels, state geologist, has been removed, and J. G. Percival, the distinguished poet and scholar, appointed in his place. We should be sorry to believe the reason assigned for his removal—that he was a whig—was the true one. If there is any such thing as *whig* geology, or *democratic* geology, the dividing line has escaped our notice. We rather think the removal was made as an example to young men of the state, showing the kind of encouragement they are to expect for devoting a number of years time to the acquisition of knowledge peculiarly useful to the state. The public will be the greatest sufferers by the change. Not that Mr. Percival is not fully competent, but that all the data already collected—sufficient for a volume—and all the drawings, maps, specimens, &c., thus far collected, as well as the expense incurred, will be lost. Nor are we entirely satisfied with the time selected for this removal. If made while Prof. D. was here, during the winter or spring, there might have been a plausible pretext; but to do it while in the midst of his labors, far up in the wilds of the north-west, where he may not hear of it for weeks, does not look like fair or decent treatment.

Prof. Daniels has probably done as much or more than any other person to awaken an interest in geological studies in this state. Young, active, full of enthusiasm in the pursuit of his profession, of retentive memory, a close observer, and unobtrusive worker—fully competent to the task, and a noble ardor to perfect it satisfactorily—now far away in the northern wilds, exposed to all the vicissitudes of the weather and the incidents of frontier life—after having accomplished but a part of his survey he is turned out because it is said his politics don't suit! On the whole, we don't think the reason quite sufficient.

Mr. Percival is one of the few great poets of the age, and worthy of any honor the state could confer. We are gratified to learn that one so gifted has received the appointment; conferring thereby more honor than he receives. That his work will be well done need not be doubted, if he has the physical endurance to stand his fatigues. The compensation, however, is baggary; and scarce pays the necessary expenses. It is within our knowledge that, including outfit, Prof. D. did not make a dollar last season, and we give notice that we shall advocate better pay to his successor.

The general appropriation bill has passed the house of representatives. \$550,000 are appropriated for the New York assay office and \$160,000 for the completion of marine hospitals at Cleveland, Chicago, Louisville, Paducah, Evansville, San Francisco and Vicksburg.

We take the following from Ford's History of Illinois, an interesting work lately published by S. C. Griggs & Co. of Chicago. Mr. Frederick Adolphus Hubbard, a candidate for Governor in 1826, on one occasion addressed the people as follows:

**FELLOW CITIZENS:**—I offer myself as a candidate before you for the office of Governor. I do not pretend to be a man of extraordinary talent, nor do I claim to be equal to Julius Caesar or Napoleon Bonaparte, nor yet to be as great a man as my opponent, Governor Edwards. Nevertheless I think I can govern you pretty well. I do not think it will require a very extraordinary smart man to govern you; for to tell you the truth, fellow citizens, I do not think you will be very hard to govern, no how.

On another occasion while the same gentleman was a member of the legislature, a bill for paying a bounty on wolf scalps was pending. Mr. Hubbard rose and said:

"Mr. Speaker:—I rise before the question is put on this bill, to say a word for my constituents. Mr. Speaker, I have never seen a wolf. I cannot say that I am very well acquainted with the nature and habits of wolves. Mr. Speaker, I have said that I have never seen a wolf. But now I remember that once on a time, as Judge Brown and I were riding across the Bonpas prairie, we looked over the prairie about three miles, and Judge Brown said: 'Hubbard! look! there goes a wolf!' and I looked, and I looked, and I looked, and I said, Judge, where? and he said there; and I looked, Judge, and this time, in the edge of a hazle thicket, about three miles across the prairie, I think I saw the wolf's tail. Mr. Speaker, if I did not see a wolf this time, I think I never saw one. But I have heard much and read much about this animal. I have studied his natural history. By-the-by, history is divided into two parts; there is, first, the history of the fabulous, and secondly, of the non-fabulous or unknown ages. Mr. Speaker, from all these sources of imagination, I learn that the wolf is a very noxious animal; that he goes prowling about, seeking something to devour; that he rises up in the dead and secret hours of the night, when all nature reposes in silent oblivion, and then commits the most terrible devastations upon the rising generation of hogs and sheep. Mr. Speaker, I have done, and return my thanks to the house for their kind attention to my remarks."

The members were undoubtedly convinced by this speech, either in favor or against the bill, it is difficult to determine which.

**WHEAT CROP.**—We hear a rumor that the wheat fields in neighboring Wisconsin are badly afflicted with the rust.—*Galena Gazette.*

This may be true of the western portion of the state, but we have heard nothing of the kind in this vicinity. The weather until yesterday has been extremely favorable for a week past. The showers and hot sun of yesterday may do damage, but we trust not.

**ESCAPE AND RE-CAPTURE OF STERLING.**—Sterling, indicted for mail robbery, left town in somewhat of a hurry yesterday, about an hour before his case was called for trial. He was at large, under bail of \$5,000, his brother, ex-senator Sterling, being his security. He was promptly pursued by deputy marshal Cotton, apprehended some 20 miles from town on the Arena road, brought back and committed to the county jail. This morning his bail was remitted by the court, and he was taken permanently into custody.

The trial of Sterling took place this morning. The case was given to the jury about 10 o'clock. After a short absence they returned with a verdict of guilty. Sterling was prosecuted by Mr. Sharpstein, and was defended by Judge Dunn.—*Madison Argus.*

**DRAINING LAKES AND SWAMP LANDS.**—Indiana is doing a great work of internal improvement, aside from those usually engaged in by other states, which must be of vast ultimate importance. It is no less a work than this:

There is much land in the state which is subject to annual inundation, either from the want of proper outlets to the lakes or rivers, which have been obstructed by drifts of timber or beaver dams, or from the natural formations of the country. All this is to be drained by the widening of the natural channels or the excavation of new ones.

Beaver lake, in Jasper county, some twelve miles long and in places eight or nine miles wide, with indented shores, and covering nearly a hundred square miles, enough for three good townships, and in wet times overflowing as much more, and having no natural outlet, although the reservoir of several small streams, is to be drained by an artificial canal thirty feet wide, and of sufficient length and depth to carry off the entire body of water. It is supposed the whole bed of this lake will make rich arable lands and that the drained lands, by the improvement of health and by inducing settlements and cultivation, will soon return in taxes to the state coffers the whole expense of drainage, to say nothing of the ultimate object of all political economy, the increase of a brave, intelligent and industrious population.

**THE RAILROAD BILL.**—In the daily Democrat of Saturday we have the gratifying intelligence that the Minnesota railroad bill passed the house, and as a similar bill has once passed the senate, the prospect is now very encouraging indeed. This bill is so worded, that the charter given by the Minnesota legislature last winter cannot control the grant. There will therefore be another chance the coming winter to make a bargain for a railroad, and it is devoutly to be wished that the folly of the past winter may not be re-enacted. There was a deal of flurry and fight then which will not exist next time, as long before the meeting of our legislature the grant by congress will be a fixed fact and we can dispose of it in cool blood. Mr. Rice is a most indefatigable worker for the interests of Minnesota, and we are glad he has been so successful in the face of most formidable obstacles.—*St. Anthony Democrat.*

**THE SCHOOL LANDS.**—The Wisconsin Patriot charges, that, after the semi-official announcement that Mr. James Ludington had purchased all the school lands, and all further sales refused, that parties are sent out to select all the best school lands, and after entering those, they rejected the poorer lands, and that now these poorer lands are for sale again. We hope there is some mistake about this, for it is a little too barefaced a proceeding.—*Free Democrat.*

**SUN STROKE.**—On yesterday, about 2 o'clock, a man fell down on Randolph street, near Wells, under the effects of a *coup de soleil*. We did not learn his name. Our citizens cannot be too careful, during the present excessive heat, to avoid accidents of this kind. By adopting the precaution we mentioned the other day—a wet handkerchief placed in the crown of the hat—all danger of a sun stroke may be entirely avoided.—*Chicago Trib.*

**ON THE FOURTH.**—The conductor of the Galena and Chicago Union Railroad, for some good reason, no doubt, put a man named Mathew Hograff off the cars. To revenge himself upon the road he hid an iron rail across the track, but fortunately for him and the passengers the cow-catcher knocked it off thus preventing an injury to life and property. He was arrested yesterday and bound over by the mayor for further examination in the sum of \$4,000. Too much credit cannot be given for this prompt arrest, and the mayor did his duty when he fixed such exemplary bail, for the offence should be ranked equal to that of murder.—*Young America.*

**THE MASS CONVENTION.**—This body will meet here on Thursday. The indications are that it will be the largest political gathering ever seen in the state, as our hotel keepers should be making proper arrangements for their accommodation. From the statements of our neighbors over the way we should judge that pretty extensive preparations have already been made. It seems to think the convention will be so large that its members will be compelled to levy contributions for bed and board upon private families. Well, we should not be surprised.—The hotels will unquestionably find it impossible to accommodate anything like the whole; and where private families have room they may be called upon to furnish lodgings for a portion of the delegates for one night.—*Madison Journal, Tuesday.*

**SAN OCCURENCE.**—On Friday afternoon last a dispute arose between Mr. Hiechox of the St. Paul drug store and a drayman by the name of Pelcier, in regard to paying for some drayage. Pelcier attempted to carry back to the landing a box belonging to Hiechox, because the latter would not pay for hauling it, he not having ordered it to be hauled. A scuffle ensued, during which Mr. Hiechox seized an axe and struck or attempted to strike the drayman, who drove an iron bar from his dray, struck Mr. Hiechox heavily below, badly fracturing his skull. He yet lies in a critical condition, though hopes are entertained of his recovery. Mr. Pelcier was arrested, but the examination was adjourned for a few days.—*St. Anthony Democrat.*

In Baltimore a Hebrew woman who was supposed to be dead was dressed in her shroud, placed in her coffin and the lid was about to be screwed down, when it was discovered that life was not extinct. All present immediately gathered around the coffin, and the embowered corpse like form arose from her narrow bed, and embraced her children and relatives with all the fervor of renewed life. To all appearances she became convalescent, and subsequently partook of food. She remained in this condition until the approach of night, when she tottered to the bed and in a few moments breathed her last.

**COMMON SCHOOLS.**—In an oration at Williams college, Mass., Hon. Edward Everett once said: "I would rather occupy the bleakest nook of the mountain that towers above us, with the wild wolf and the rattlesnake for my nearest neighbors, with a village school, well kept, at the bottom of the hill, than dwell in a paradise of fertility, if I must bring up my children in laziness, pampered, self-sufficient ignorance."

**THE TIDE OF EMIGRATION.**—The following is a correct return of the number of foreign emigrants, who have arrived at the port of N. Y. during the last month (June):

Germans	11,117
British	19,850
French	7,900
Spanish	279
West Indians	77
Total	32,833

**FEMALE POSTMASTERS.**—The number of females at present holding the office of postmaster in the United States is 128. They are appointed, give bonds, are commissioned, and receive the same compensation for their services as other postmasters. Unmarried females only can hold the office of postmasters.

**GREAT PRODUCT FROM SHEEP.**—There may be seen on the farm of D. O. Bissell in Byron, Fond du Lac county, a flock of forty-eight sheep, forty-five of them ewes, which have raised forty-four lambs the present season, and have sheared two hundred and fifty pounds of well washed wool; being an average of 5-16 lbs per head.—*Fond du Lac Union.*

**RAILROAD VOTE.**—The citizens of Peoria by an almost unanimous vote, 533 to 29, have decided to subscribe twenty-five thousand dollars more to the capital stock of the Peoria and Oquawka railroad, which swells the subscription in Peoria to \$250,000.

We learn by passengers from St. Louis, that the cholera is prevailing in that city to an alarming extent. The disease is said to be epidemic and malignant. It is to be hoped that the report is exaggerated, or that the attack will be of short duration.—*Galena Jeffersonian.*

We are pained to learn of the sudden death of James H. Collins of our city, at Ottawa. Mr. Collins was at Ottawa on Friday and argued a case before the supreme court which occupied the whole day. At 7 o'clock on Saturday he was a corpse. The cause of his death, we learn, was apoplexy.—*Chicago Young America.*

**THE SMALL POX.**—Much alarm has been manifested by our friends in adjoining towns, in consequence of the existence of the small pox in this place, and several exaggerated reports have been put in circulation. We can assure our friends there is no cause of alarm. There has been no new cases within the last 12 days—the disease is now evidently checked—and no fear are entertained of its further spread, the only two existing cases are so far recovered as to be considered out of danger.—*Monroe Sent.*

An English paper mentions the case of a robber who committed suicide to avoid capture.—A woman, attracted by curiosity to behold the body, shrieked and fainted—it was her husband. The neighbors were sent for, and all recognized it as the body of her husband. It was carried to her house—at the threshold of the door, the corpse, the pallbearers, the weeping widow and neighbors met the husband alive and in perfect health!

Considerable excitement was caused on the fourth by the rumor that the order of know nothing would march in procession down the track of the Michigan Central railroad to the old depot. An anxious crowd of Irishmen and others lined the lake shore for some time, armed with shillaloes, but finally came to the conclusion that their informants knew nothing about it.—*Chicago Trib.*

**CROPS IN DODGE COUNTY.**—The Beaver Dam Republican says that the crops, especially those of grain, look well in that vicinity, and promise an abundant yield. The only fear entertained is that the growth may be too large, causing the straw to lodge, diminishing the chances of the berry filling well, and increasing the labor of the harvest.

**NEW YORK MONEY MARKET.**—The Mirror, of Saturday, the 8th, reports the stock market as animated, prices 2 per cent. better, and no further failures reported. It adds: "The tide has turned in Wall street; the breakers are passed, the clouds are clearing away, and there is now to be seen in the financial future naught but sunshine and clear weather."

"The bears are taking in their stocks freely, and the money market is letting up considerably. We may expect smooth water next week in all financial matters."

**SUDDEN DEATH.**—Thomas Derrin of Clyman, was on the 28th ult. found dead in a field a short distance from home. The day before he went out to hunt cattle and not coming back search was made for him, and next day he was found dead as stated. It is supposed that he was attacked with an apoplectic fit or was sun-struck. His remains were brought here and interred in the catholic burial ground, followed by a large concourse of friends and neighbors. Mr. D. was about 60 years of age.—*Watertown Register.*

A certain fast man of this city sat up the other night all night enjoying a small game of "draw." As a matter of course, next morning he was tolerably sleepy, and while about half asleep at the breakfast table, the servant asked him what he would have. He put the table in a roar, by answering "three cards."—*Miss Free Trader.*

"Too Old?"—The Sunday Atlas, in a fit of revolutionary enthusiasm, says: "Hurrah for the girls of '76!" "Thunder!" cried a Jersey whig, "that's too old! No, no, hurrah for the girls of '17!" The New Jersey whig got all to shout with him, we are told, and the old women about his ears.

**CONSOLIDATED DEBT OF PHILADELPHIA.**—At a meeting of the city council of Philadelphia, a proper committee reported the debt of the consolidated city to be \$10,000,000. As an offset, however, the municipality owns some \$8,000,000 in railroad stock.

At a social party one evening, the question was put up, "what is religion?" "Religion," replied one of the party, "is an insurance against fire in the next world, for which honesty is the best policy."

A German almanac remarks that a young girl is a fishing rod; the eyes are the hook, the sweet smile is the bait, the lover is the gudgeon, and marriage is the better in which he is fried.

**SEMI-ANNUAL REPORT OF THE BADGER STATE BANK.**  
A Banking Association organized under an act of the Legislature of the State of Wisconsin, entitled "An Act to authorize the business of Banking," approved April 1, 1853, showing a statement of the following items on the first Monday of July, in the year 1854, before the transaction of any business on that day.

## RAILROAD STORE!

I WISH to call attention, as I have done before, To the Goods I am receiving now at the Railroad Store, Where all the newest Fashions, to suit the young and old, The richest and the cheapest goods in Janesville, will be sold.

My large and splendid stock of Lawns to show I'm all ways willing.

The price, as all the Ladies know, is from sixpence to a shilling.

I've Fine Black Silks from Italy, and colored ones that's rare.

Plaid, Godepans and Marcellines, and Florences to spare.

And such a lot of Hosiery, I know cannot be beat.

And Gloves a great variety, they are so very neat: Just now, when Spring is coming, and every thing looks bright.

For a glove to suit the season, the color should be light.

There are other Goods for Ladies, of which they ought to know.

That I keep in those blue boxes, and am always pleased to show.

Such as Blonde and Linen Edging, Cotton and Cambric, too.

Muslin and Cambric Needlework, and Gimps of every hue.

Those Underclothes and Chemises I almost had forgot.

And Ladies' Needlework Collars, so beautifully wrought, With Bishop Lawns and Cambrics, and Muslins fine and neat.

And Lace to make old ladies' Caps and trim them off complete.

And to parry Sol's "director rays," I've Parasols to sell.

Of every price and color—they please the Ladies well—And Umbrellas cheap for Gents, or so at least they say, For lots of them get carried off, on every rainy day.

Such lots of Combs for the million, of every sort and kind.

To puff, or curl, or plait the hair, no better can you find.

And every kind of Buttons for dresses, coats and vests, To sell by the gross or dozen—they are the very best.

And for Gentlemen and little Boys I have Fashionable Hats, Beaver, Leghorn, Panama, and cloth and leather Caps.

And for infants, Hats with feathers and ribbons gay and bright.

And little Caps with tassels drab, orange, blue and white.

I have stacks of Linen, of yellow, brown and white, And every other kind, of Summer Goods that's right To make up into coats and pantaloons and vests—As large a stock as any, that ever was brought West.

They say long advertisements, are not the oftenest read, And that most may be meant, as oft, when least is said, In view of this, I'll close my bill, and here invite you all, Whenever you come to Janesville, be sure and give me a call.

Janesville, June 5th, 1854. IRA P. BALLOU.

## FRENCH VARIETY STORE.

**V. JOUANNEAULT,**

Janesville, June 1st, 1854.

## EMPIRE CASH STORE!

The Cheapest Store in the County.

THE LARGEST, Most General and Best Selected Stock of MERCHANDISE ever introduced to the people of Rock and the adjoining counties is now received at the EMPIRE CASH STORE. A Stock larger than any Two Stores in Janesville to be sold for CASH, at prices that all can see are at least 25 per cent lower than the PRETENDED CASH STORES.

"We mean what we say exactly: We can sell you the Least amount of Money Than any other Store in the County. For this reason we sell more Goods than any two Stores in Janesville, and this year we intend to sell more than any three, consequently, we can sell just one-third cheaper, as our expenses are no more by selling so much than they would be did we not sell more than our neighbors.

Reduce The Price and Increase the Speed is the order of the day; and in order to do so, we have purchased this spring larger than ever, and intend to sell at prices to astonish everybody.

We buy Goods to SELL, and intend everybody shall understand this by our prices. We have purchased every thing by the Cord in the way of Merchandise. Our Stock consists of everything in the Goods line, kept in such a store as ours only, commencing with DRY GOODS, GROCERIES, CROCKERY, HARDWARE in connection with a general STORE TRADE.

**READY-MADE CLOTHING,**  
BOOTS AND SHOES, HATS, BONNETS, RIBBONS AND CAPS, &c.

To enumerate what would be impossible, (any one seeing our stock will be satisfied of that).

All we have to say is we have JUST WHAT YOU WANT, AT PRICES TO SUIT YOU, a fact which all can see by calling at the EMPIRE CASH STORE.

H. S. SHELTON & CO.

Janesville, June 7th, 1854.

## KIER'S ROCK OIL,

FROM A Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of no common value. It is a different kind from the old Kentucky or American Oil, as it is used INTERNALLY as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness, Loss of Sight, Burns, &c., also, as a valuable Internal Remedy for Piles, Ague, Scrophulous, Diarrhoea, Erysipelas, Old Sores, Eruptions of the Skin, Female Diseases, Worms, Bladder and Kidneys, Bronchitis, Pains &c. &c., it invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has within 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only increase but hold out Testimony to the great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is also—and mind you, a REGULATOR.

A leading principle in it is *Naphtha*. When you once have it in the family you will not be without it.

Full as the world is of Patent Medicines—it is the right not best to suppress this, the work of NATURE—to make room for *Human Inventions*. Price 50 cents per bottle. It can be had of wholesalers at the large cities and towns in the West at Proprietor's prices.

HAVE WE AGUE AMONG US?—A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhoea. [?] Physicians, Druggists, and all friends of the afflicted, will do well to recommend this OIL for PROLAPSUS UTERI, and good will be done—take the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right kind—it is of a beautiful reddish color and clear. Try it for Piles.

For sale by H. HOLLEN KEMP & CO., C. P. SIMMS, Cary & Gordon, Beloit; G. W. KINSIE, Magnolia; Goodrich, Davis & Co., Milton; S. A. Pond, Albany; P. D. Vaughn & Co., Union; H. Cheney, Johnson; M. Hillen, Fort Wayne, Ind., Proprietor.

## DR. J. B. MARCHIS'S

CELEBRATED CATHOLICON,  
FOR THE RELIEF AND CURE OF SUFFERING FEMALES.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called Female Complaints. Of these are Prolapsus Uteri, or falling of the womb; Fibroid, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful Menstruation &c. with all their accompanying evils (Cancer excepted), no matter how severe or of how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition. Let all interested call and obtain a pamphlet (free) containing ample proof from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

FARWELL & BRO.

## 1000 Dollars Reward,

WILL be given to any person—Physician or otherwise—who will perform a cure as quickly and permanently, by any means whatever, of any of the following diseases, as can be done by the use of PULVERMACH'S

Hydro-Electric Voltaic Chains.

Rheumatism, Nervous Headache, Painful and Swollen Joints, Palpitation of the Heart, Sciatica, General Debility, Paralysis, Female Diseases, Spinal Disease, Neuralgia of the Face, Deafness, Blindness, Rheumatic Pains of the Chest, Dyspepsia, Indigestion.

ALL NERVOUS DISEASES

Are almost instantly removed by the simple application of the Electric Chains, which are constructed so as to be worn next to the skin, producing a constant current of uninterrupted Electro-Magnetism, which within the last few years has been discovered to possess STRANGE AND WONDERFUL POWER, in the INSTANT RELIEF AND PERMANENT CURE of Nervous Diseases.

HISTORY.

Pulvermacher's Chain are presented to the public, as the most scientific and convenient mode of applying this powerful agent. They have been secured by patent in France, (where they were invented) England, Germany, Austria, Belgium, and one year since introduced into the United States, and also secured by patent. They are used in every Hospital in the State of New York, and highly recommended by professors Valentine Mott, Van Buren, Post, Carmichael, of that city, who daily make use of them in their practice.

THE WORLD IS CHALLENGED

to produce so many well authenticated certificates of cure, not only from intelligent patients, but from scientific Physicians. The site now in New York is a perfect cure in every case, and is a most successful remedy, than a Poor Man's Plaster applied to the top of the head would have in curing an infant of worms.

All these great and remarkable discoveries, by which every ill "which flesh is heir to" is eradicated from the earth—strange as it may seem—are made by men who are no ignorant to obtain a living by any other mode, and their knowledge of disease, its proper mode of cure, its cause, is just as extensive as an Arab's is of the cure of the scorpion, and as a physician dare risk his reputation as an honest man, and declare that nervous diseases are not more frequently increased in severity than relieved, by the old antiquated way of giving medicine into the stomach. If people will only become sensible and think for themselves, and believe that physicians practice upon their credulity more than they pay any idea of curing disease, they will be made wise in all things, (which means very much), make free use of pure cold water, internally and externally, with an occasional dash of soap, used in freely ventilated rooms, retire early and sleep early, be happy and cheerful, employ the physician to tell them "they require no physic," by so doing health and happiness will increase, bottled medicines and water be at a discount, and his famous discoveries be consigned to their legitimate station.

The Hydro-Electric chains are now for the first time offered to the people of Nashville, as being a better, quicker, and safer mode of curing all nervous diseases, than any other method or means hitherto discovered. They can be used by either a grown person or child, are always ready for use, and with little care will last for years.

CAUTION.

Ladies who are *enclitic*, are requested not to wear them, for by long use, miscarriage is apt to be produced.

Price of Chains, \$3 to \$5, and can be sent by mail to any part of the country, together with a pamphlet of 36 pages, containing the modes of use, certificates of cure, &c.

## A STORE FOR SALE OR TO LET.

THE STORE and a Lot of ground known as Lot No. 3, on Block No. 1, in the village and township of FULTON, Rock County, on the Catfish, near its confluence with Rock river, 11 miles northwest of Janesville.

The building is well calculated for a country store, being 28 feet front by 52 feet deep, and finished off above into convenient apartments either for a family or for offices, all in good condition.

The whole has been occupied for three years past by Messrs. T. E. and F. G. Green, as a store and dwelling, and being situated immediately opposite the Gristmill, is considered the best location for business in the village. The lot is two rods front by about seven rods deep.

This property will be sold or let on reasonable terms, and possession given immediately. For particulars enquire of MILLS & BAYNE, Fulton, or LEVI ALDEN, Janesville.

Land Contracts for sale at the office

**BELOIT COLLEGE COMMENCEMENT.**—We learn that the exercises on Wednesday were well attended and of an interesting character. The salutatory oration, in Latin, was pronounced by Marlan S. Page, of Platteville, and the valedictory by James A. Brewster, editor of the Beloit Journal. The orations throughout were creditable productions. The one by Joseph Collier, upon "the peculiar incentives to intellectual effort in the west," is spoken of in particular as well written and well delivered.

At a meeting at Stockbridge, Calumet county, on the 8th, for the purpose of choosing delegates to attend the Madison convention, after the choice of the delegates, the following resolution was unanimously adopted:

Whereas: Several suspicious persons have been prowling about this county, for the last ten or twelve days, in pursuit of fugitives from oppression; therefore

Resolved, That we disclaim any law making human beings chattels, and any attempt to carry such a law into effect, in our county or neighborhood, cannot be successfully accomplished, unless done by sacrificing the lives of our citizens.

The steamer Traveler caught fire, at her dock in Chicago, Wednesday evening. The upper works forward of the wheel house were consumed before it could be extinguished.

**PREMIUM LIST.**—The premium list for the state fair to be held at Milwaukee on the 4th, 5th and 6th of October next, has been printed in pamphlet form, at the office of the Madison Patriot. The premiums range from \$1 up to \$15, and the list is very full, many additions having been made.

WASHINGTON, July 13th.  
The Japan treaty was sent into the senate today, the house investigating committee into charges of bribery in connection with Colts patent were progressing with their labors.

The investigation caused no little fluttering. Senator Jones of Iowa reported a bill on committee, on pensions in favor of granting a pension to the widow of James Batchelder; he stated that the committee were about equally divided upon the subject. Senator Sumner of Mass., submitted a minority report. Senator Rusk introduced a resolution as the session was drawing to a close, it hereafter meet at 11 A.M., instead of 12, laid over. The senate then took up the homestead bill.

FRIDAY MORNING, JULY 14, 1854.

INGENUOUS.—It is related that old bishop Ayher, on a certain occasion, seeing his congregation pretty generally asleep, took his Hebrew bible from his pocket, and read a chapter, which roused attention, when the old minister rebuked them for sleeping when they might have understood him, and listening when they knew not a word he said.

 The general appropriation bill has passed the house of representatives. \$500,000 are appropriated for the New York assay office and \$160,000 for the completion of marine hospitals at Cleveland, Chicago, Louisville, Paducah, Evansville, San Francisco and Vicksburg.

**SUN STRUCK.**—On yesterday, about 2 o'clock a man fell down on Randolph street, near Wel-  
 come the effects of a *coup d' soleil*. We did  
 not learn his name. Our citizens cannot be too  
 careful, during the present excessive heat, to  
 avoid accidents of this kind. By adopting this  
 precaution we mentioned the other day—a wa-  
 ter handkerchief placed in the crown of the hat—  
 the all danger of a sun stroke may be entirely  
 avoided. —*Chicago Trib.*

An English paper mentions the case of a robber who committed suicide to avoid capture. A woman, attracted by curiosity to behold the body, shrieked and fainted—it was her husband. The neighbors were sent for, and all recognized it as the body of her husband. It was carried to her house—at the threshold of the door, the corpse, the pallbearers, the weeping widow and neighbors met the husband alive and in perfect health!

THE MORALS OF MEXICAN GENERALS.—Gen. Avila's disgrace by being reduced to the ranks for the crime of bigamy, has been confirmed. His second wife, whom he married by proxy, in the early part of 1852, was the daughter of the late general Sanchez, and is a lady universally esteemed for her accomplishments and virtues. It is now said that the unhappy lady, in despair, committed suicide. This man, Avila, commanded in Matamoros during the exciting filibuster troubles in October 1821, and for his defense of that place he was promoted to the rank of full brigadier-general, received the thanks of congress, and a cross of honor from the then sovereign state of Tamaulipas. Such is life; and such appears to have been the end of a "first man." It is strange that the present ruler of Mexico should in 1854, punish in such an exemplary manner a crime in one of his subordinates that he has been in substance, guilty of himself. In February, 1846, Don Antonio Lopez de Santa Anna, as president of Mexico, commander-in-chief of operations against Texas, entered San Antonio de Bexar. There lived at that time, in La Villita, close by the memorable Alamo, on the banks of San Antonio, a young, frail, unsuspicious daughter of Eve, whose only fortune was her fair name and fine appearance. She was pleasant to look upon. In my youthful days I know her well. The chief of the militia host saw her, and unable to corrupt her, had one of his own officers dressed in the garb of a priest, who performed the marriage ceremony. Years elapsed, and when Santa Anna returned to Mexico, crowned with the laurels he had gathered on the field of San Jacinto, he married his victim to a colonel in the Mexican arms.

MOMRON MIGRATION.—Dr. Bascom late editor of the Ohio State Journal is traveling in Nebraska and Kansas, and in one of his recent letters says:

Between Kansas and Westport we passed an encampment of 8,000 Mormons who were on their way to the Great Salt Lake. They were waiting for the business of their company, and had been encamped there for several days. They were in a fine forest. Some were sleeping in their wagons, but the most of them tented, and the woods and fields adjoining, in all directions, were covered with these white and fragile dwellings. Oxen are used for teams. Men, women and children were scattered about all sides. Blacksmiths' hammers were heard, and the hum of preparation came up from all parts of the camp. It was a singular sight, and fraught with many suggestions and reflections upon this strange and deluded people. These emigrants are generally from Europe, and the most of them do not speak a word of English. They have a long journey before them. The cholera is said to be among them, but I have heard so many rumors of this disease out west on the rivers, &c., and have seen so little of it, that I have lost all confidence in the truth of these stories.

THE HORRORS OF THE BALTIMORE RAILROAD ACCIDENT.—The large number on the train, and the violence of the collision rendered it one of the most murderous railway disasters that ever occurred. Among the incidents it is related:

On all the platforms of the wrecked cars the destruction of life and limb was immense, and the cars being so closely wedged together it was utterly impossible for more than an hour to remove any of them, although the screams of the sufferers caused the most superhuman exertions for their rescue.

On the platform at the head of the excursion train, four men were caught by the fore part of the engine, two of whom were instantly killed, and the other two were fast by their limbs, suffering the most excruciating agony, and almost roasted by the smoke pipe of the locomotive. They both fainted from exhaustion before they could be rescued, requiring more than an hour of incessant labor, and one of them subsequently died.

Benjamin Morryman, the bangaroo master, met death standing manfully at his post at the brake, endeavoring to check the destruction.

A powerfully built man, one of the men connected with the engine, was drawn out from the ruins at seven o'clock, with severe bodily injury, but the moment he was relieved from the pressure he became insensible, and in his dying agonies his body fairly bounced from the car.

TOWN SITES IN NEBRASKA.—We know of no region where so beautiful situation for towns and cities may be found as in Nebraska.

On the Missouri river, the bluffs are bold and commanding; and upon the high, beautiful eminences, water, the purest and sweetest, may be found abundant. The site of Omaha City, opposite Council Bluffs, is among the finest in the territory. Bellevue, ten miles below, is another beautiful situation. Winter Quarters, the same distance above, is hard to be excelled, and still higher up the river, there is the site of old Fort Calhoun, and other fine points for towns, to say nothing of several pretty locations below the mouth of the Platte. Omaha City and Bellevue are certainly two of the most advantageous locations for cities that we have ever seen. The former is expected to be the future seat of government for this new and promising territory. Those who are visiting our city, should not fail to extend their tour to these places.—*Council Bluffs Eagle*.

THE MAINE LAW ON ITS NATIVE SOIL.—The aims house of Portland was built when the city contained about 10,000 inhabitants, and at 23,000, it was densely crowded. The authorities were considering the erection of a new one, to cost not less than \$30,000. But after the Maine law had been in operation a few months only, ranges of apartments were empty there, and the establishment as it now stands will be sufficient, under a vigorous enforcement of the Maine law, until the city shall contain 100,000 inhabitants.

Neal Dow writes to Hunt's Magazine. At the time of the enactment of the Maine law, the number of open rum-shops in Portland was estimated to be from 300 to 400; now there is not one! The keepers of the secret rum-shops have a few well-known customers, and no stranger is admitted. These shops contain but small quantities of liquors, and are fitted up with an apparatus which, on touching a spring, will smash the bottles containing them, so that they may not be seized by the police.

The pay of a French soldier is nine and a half cents a day, finding him food, or what is the same thing, with food and two cents a day for pocket money. Chevalier in his notes on America, says an American boy 18 years of age, gets more pay for his labor than a captain in the French army. The American army is the most expensive in the world, and it would beggar the most wealthy nation in the world to keep up such an army as France has often done and pay them as United States officers and soldiers are paid.

INGENUOUS.—It is related that old bishop Ayler, on a certain occasion, seeing his congregation pretty generally asleep, took his Hebrew Bible from his pocket, and read a chapter, which roused attention, when the old minister rebuked them for sleeping when they might have understood him, and listening when they knew not a word he said.

# The Daily Gazette.

FRIDAY MORNING, JULY 14, 1854.

An important error occurred in the report of the Badger State bank, published yesterday. We republish it, corrected.

A TRI-WEEKLY.—There are many of our friends in neighboring towns who would like to take the Daily Gazette, yet as they only have a mail three times a week, they could hardly afford to take it and receive it only every other day. For the convenience of such we propose to issue a tri-weekly edition containing all the reading matter of the daily, to be afforded at \$3.00 a year. Will those who would like such an arrangement take a little pains to ascertain what number of copies would be taken at their respective post offices, and inform us by mail. The news from Europe is of an interesting nature; the elections in many of the states are nearly at hand, and those who would keep up with the times will have to look well to the papers. There is no medium for those living in the neighborhood of our city by which so late dates can be obtained, as through our columns. Let us have a prompt response to the proposition, and if favorable, we will act with equal promptness.

One effect of railroads is to root out a vast amount of jealousy and ill-feeling between rival points in a state. When a day or two apart, and accessible only by the "slow and tedious" mud wagon, people don't circulate, and a "lick ahead" at any place, creates little rivalries and small feuds. Connect by rail, and citizens "just step across" to see for themselves. They speedily get acquainted, find out the "good fellows," and learn that in the long run every place thrives according to its local advantages, and hot-house don't win. Janesville, Madison, and Watertown have indulged in a little good natured rivalry for a few years past in seeing which could cast most votes at the annual elections. All three now have, or soon will have railroads. Madison started late, but she is rapidly "pulling up." Janesville and Watertown are a little ahead of us, and about "neck and neck" with each other. Our township, being mostly covered with lakes, places us in the back-ground in respect to population-territory, putting the onus of voting on to the village. Another year, we think will show these three places about even.—*Madison Patriot*.

There never has been anything like "jealousy or ill-feeling" on the part of Janesville, towards either Madison or Watertown. Those places have never been regarded as rivals. Their interests are nearly identical, but they are too far apart to interfere materially with each other's trade. As to the number of votes cast, it is no very strict criterion upon which to judge of the thrift or business prospects of a place. However, if either of these thriving towns wish to compare notes, in this particular: in actual population, or in the amount of business and trade, Janesville will not be found backing out.

We know nothing of the merits of the case in the recent removal of Professor Daniels as state geologist. We have little acquaintance with him, but have always regarded him as a young gentleman of considerable promise. That he is ardently devoted to the science of geology and is well versed in it, we fully believe. We copy the following upon this matter from the Madison Patriot, without wishing to endorse all its ideas, or believing that the reasons there given for his removal are the true ones. We trust there will be some authoritative explanation of this matter:

Prof. E. Daniels, state geologist, has been removed, and J. G. Percival, the distinguished poet and scholar, appointed in his place. We should be sorry to believe the reason assigned for his removal—that he was a whig—was the true one. If there is any such thing as whig geology, or democratic geology, the dividing line has escaped our notice. We rather think the removal was made as an example to young men of the state, showing the kind of encouragement they are to expect for devoting a number of years time to the acquirement of knowledge peculiarly useful to the state. The public will be the greatest sufferers by the change.—Not that Mr. Percival is not fully competent, but that all the data already collected—sufficient for a volume—and all the drawings, maps, specimens, &c., thus far collected, as well as the expense incurred, will be lost. Nor are we entirely satisfied with the time selected for this removal. If made while Prof. D. was here, during the winter or spring, there might have been a plausible pretext; but to do it while in the midst of his labors, far up in the wilds of the north-west, where he may not hear of it for weeks, does not look like fair or decent treatment.

Prof. Daniels has probably done as much or more than any other person to awaken an interest in geological studies in this state. Young, active, full of enthusiasm in the pursuit of his profession, of retentive memory, a close observer, and untiring worker—fully competent to the task, and a noble ardor to perfect it satisfactorily—now far away in the northern wilds, exposed to all the vicissitudes of the weather and the incidents of frontier life—after having accomplished but a part of his survey he is turned out because it is said his politics don't suit! On the whole, we don't think the reason quite sufficient.

Mr. Percival is one of the few great poets of the age, and worthy of any honor the state could confer. We are gratified to learn that one so gifted has received the appointment; conferring thereby more honor than he receives. That his work will be well done need not be doubted, if he has the physical endurance to stand its rigors. The compensation, however, is beggarly, and scarce pays the necessary expenses.—It is within our knowledge that, including outfit, Prof. D. did not make a dollar last season, and we give notice that we shall advocate better pay to his successor.

The general appropriation bill has passed the house of representatives. \$530,000 are appropriated for the New York assay office and \$160,000 for the completion of marine hospitals at Cleveland, Chicago, Louisville, Paducah, Evansville, San Francisco and Vicksburg.

DROWNED.—Two daughters of Fred. Darchelt, postmaster at Manitowoc Rapids, were drowned in the river at that place, while bathing, on the 6th.

We take the following from the Illinois of Illinois, an interesting work lately published by S. C. Briggs & Co. of Chicago. Mr. Frederick Adolphus Hubbard, a candidate for Governor in 1820, on one occasion addressed the people as follows:

FELLOW CITIZENS:—I offer myself as a candidate before you for the office of Governor. I do not pretend to be a man of extraordinary talent, nor do I claim to be equal to Julius Caesar or Napoleon Bonaparte, nor yet to be as great a man as my opponent, Governor Edwards. Nevertheless I think I can govern you pretty well. I do not think it will require a very extraordinary smart man to govern you; for to tell you the truth, fellow citizens, I do not think you will be very hard to govern, no how.

On another occasion while the same gentleman was a member of the legislature, a bill for paying a bounty on wolf scalps was pending, Mr. Hubbard rose and said:

"Mr. Speaker:—I rise before the question is put on this bill, to say a word for my constituents. Mr. Speaker, I have never seen a wolf. I cannot say that I am very well acquainted with the nature and habits of wolves. Mr. Speaker, I have said that I have never seen a wolf. But now I remember that once on a time, as Judge Brown and I were riding across the Monks prairie, we looked over the prairie about three miles, and Judge Brown said 'Hubbard! look! there goes a wolf!' and I looked, and I looked, and I looked, and I said, 'Judge, where?' and he said there; and I looked again, and this time, in the edge of a 'hazel thicket,' about three miles across the prairie, I think I saw the wolf's tail. Mr. Speaker, if I did not see a wolf this time, I think I never saw one. But I have heard much and read much about this animal. I have studied his natural history. By-the-by, history is divided into two parts; there is, first, the history of the fabulous, and secondly, of the non-fabulous or unknown age. Mr. Speaker, from all these sources of imagination, I learn that the wolf is a very noxious animal; that he goes prowling about, seeking something to devour; that he rises up in the dead and secret hours of the night, when all nature reposes in silent oblivion, and then commits the most terrible devastations upon the rising generation of hogs and sheep. Mr. Speaker, I have done, and return my thanks to the house for their kind attention to my remarks."

The members were undoubtedly convinced by this speech, either in favor or against the bill; it is difficult to determine which.

WHEAT CROP.—We hear a rumor that the wheat fields in neighboring Wisconsin are badly afflicted with the rust.—*Galena Gazette*.

This may be true of the western portion of the state, but we have heard nothing of the kind in this vicinity. The weather until yesterday has been extremely favorable for a week past. The showers and hot sun of yesterday may do damage, but we trust not.

ESCAPE AND RE-CAPTURE OF STERLING.—Sterling, indicted for mail robbery, left town in somewhat of a hurry yesterday, about an hour before his case was called for trial. He was at large, under bail of \$5,000, his brother, ex-senator Sterling, being his security. He was promptly pursued by deputy marshal Cotton, apprehended some 20 miles from town on the Arena road, brought back and committed to the county jail. This morning his bail was remitted by the court, and he was taken permanently into custody.

The trial of Sterling took place this morning. The case was given to the jury about 10 o'clock. After a short absence they returned with a verdict of guilty. Sterling was prosecuted by Mr. Sharpstein, and was defended by Judge Dunn.—*Madison Argus*.

DRAINING LAKES AND SWAMP LANDS.—Indiana is doing a great work of internal improvement, aside from those usually engaged in by other states, which must be of vast ultimate importance. It is no less a work than this: There is much land in the state which is subject to annual inundation, either from the want of proper outlets to the lakes or rivers, which have been obstructed by drifts of timber or beaver dams, or from the natural formations of the country. All this is to be drained by the widening of the natural channels or the excavation of new ones.

Beaver lake, in Jasper county, some twelve miles long and in places eight or nine miles wide, with indented shores, and covering nearly a hundred square miles, enough for three good townships, and in wet times overflowing as much more, and having no natural outlet, although the reservoir of several small streams, is to be drained by an artificial canal thirty feet wide, and of sufficient length and depth to carry off the entire body of water.—It is supposed the whole bed of this lake will make rich arable lands and that the drained lands, by the improvement of health and by inducing settlements and cultivation, will soon return in taxes to the state coffers the whole expense of drainage, to say nothing of the ultimate object of all political economy, the increase of a brave, intelligent and industrious population.

THE RAILROAD BILL.—In the daily Democrat of Saturday we have the gratifying intelligence that the Minnesota railroad bill has passed the house, and as a similar bill has once passed the senate, the prospect is now very encouraging indeed. This bill is so worded, that the charter given by the Minnesota legislature last winter cannot control the grant. There will therefore be another chance the coming winter to make a bargain for a railroad, and it is devoutly to be wished that the folly of the past winter may not be re-enacted. There was a deal of flurry and fright then which will not exist next time, as long before the meeting of our legislature the grant by congress will be a fixed fact and we can dispose of it in cool blood. Mr. Rice is a most indefatigable worker for the interests of Minnesota, and we are glad he has been so successful in the face of most formidable obstacles.—*St. Anthony Democrat*.

THE SCHOOL LANDS.—The Wisconsin Patriot charges, that, after the semi-official announcement that Mr. James Lindington had purchased all the school lands, and all further sales refused, that parties are sent out to select all the best school lands, and after entering those, they rejected the poorer lands, and that now these poorer lands are for sale again. We hope there is some mistake about this, for it is a little too barefaced a proceeding.—*Free Democrat*.

SUN STRUCK.—On yesterday, about 2 o'clock, a man fell down on Randolph street, near Wells under the effects of a coup de soleil. We did not learn his name. Our citizens cannot be too careful, during the present excessive heat, to avoid accidents of this kind. By adopting the precaution we mentioned the other day—a wet handkerchief placed in the crown of the hat—all danger of a sun stroke may be entirely avoided.—*Chicago Trib*.

ON THE FOURTH.—The conductor of the Galena and Chicago Union Railroad, for some good reason, no doubt, put a man named Mathew Hoggart off the cars. To revenge himself upon the road he laid an iron rail across the track, but fortunately for him and the passengers the cow-catcher knocked it off thus preventing an injury to life and property. He was arrested yesterday and bound over by the mayor for further examination in the sum of \$1,000. Too much credit cannot be given for this prompt arrest, and the mayor did his duty when he fixed such exemplary bail, for the offence should be ranked equal to that of murder.—*Young America*.

THE MASS CONVENTION.—This body will meet here on Thursday. The indications are that it will be the largest political gathering ever seen in the state, and our hotel keepers should be making proper arrangements for their accommodation. From the statements of our neighbor over the way we should judge that pretty extensive preparations have already been made. He seems to think the convention will be so large that its members will be compelled to levy contributions for bed and board upon private families. Well, we should not be surprised.—The hotels will unquestionably find it impossible to accommodate anything like the whole; and where private families have room they may be called upon to furnish lodgings for a portion of the delegates for one night.—*Madison Journal*, Tuesday.

SAD OCCURRENCE.—On Friday afternoon last a dispute arose between Mr. Hicheck of the St. Paul drug store and a drayman by the name of Pelletier, in regard to paying for some drayage. Pelletier attempted to carry back to the landing a box belonging to Hicheck, because the latter would not pay for hauling it, he not having ordered it to be hauled. A scuffle ensued, during which Mr. Hicheck seized an axe and struck or attempted to strike the drayman, who having an iron bar from his dray, struck Mr. Hicheck a heavy blow, badly fracturing his skull. He yet lies in a critical condition, though hopes are entertained of his recovery. Mr. Pelletier was arrested, but the examination was adjourned for a few days.—*St. Anthony Democrat*.

In Baltimore a Hebrew woman who was supposed to be dead was dressed in her shroud, placed in her coffin and the lid was about to be screwed down, when it was discovered that life was not extinct. All present immediately gathered around the coffin, and the embowered corpse like form arose from her narrow bed, and embraced her children and relatives with all the fervor of renewed life. To all appearances she became convalescent, and subsequently partook of food. She remained in this condition until the approach of night, when she tottered to the bed and in a few moments breathed her last.

COMMON SCHOOLS.—In an oration at Williams college, Mass., Hon. Edward Everett once said: "I would rather occupy the bleakest nook of the mountain that towers above us, with the wild wolf and the rattlesnake for my nearest neighbors, with a village school, well kept, at the bottom of the hill, than dwell in a paradise of fertility, if I must bring up my children in lazy, pampered, self-sufficient ignorance."

THE TIDE OF EMIGRATION.—The following is a correct return of the number of foreign emigrants, who have arrived at the port of N. Y. during the last month (June):

Germans,	11,117
British,	10,850
French,	7,900
Spanish,	79
West Indians,	277
Total,	30,383

FEMALE POSTMASTERS.—The number of females at present holding the office of postmaster in the United States is 128. They are appointed, give bonds, are commissioned, and receive the same compensation for their services as other postmasters. Unmarried females only can hold the office of postmasters.

GREAT PRODUCT FROM SHEEP.—There may be seen on the farm of D. O. Bissell in Hyron, Fond du Lac county, a flock of forty-eight sheep, forty-five of them ewes, which have raised forty-four lambs the present season, and have sheared two hundred and fifty pounds of well washed wool; being an average of 3-16 lbs per head.—*Fond du Lac Union*.

RAILROAD VOTE.—The citizens of Peoria by an almost unanimous vote, 533 to 29, have decided to subscribe seventy-five thousand dollars more to the capital stock of the Peoria and Ottumwa railroad, which swells the subscription in Peoria to \$250,000.

We learn by passengers from St. Louis, that the cholera is prevailing in that city to an alarming extent. The disease is said to be epidemic and malignant. It is to be hoped that the report is exaggerated, or that the attack will be of short duration.—*Galena Jeffersonian*.

We are pained to learn of the sudden death of James H. Collins of our city, at Ottawa. Mr. Collins was at Ottawa on Friday and argued a case before the supreme court which occupied the whole day. At 7 o'clock on Saturday he was a corpse. The cause of his death, we learn, was apoplexy.—*Chicago Young America*.

THE SMALL POX.—Much alarm has been manifested by our friends in adjoining towns, in consequence of the existence of the small pox in this place, and several exaggerated reports have been put in circulation. We can assure our friends there is no cause of alarm. There has been no new cases within the last 12 days.—The disease is now evidently checked—and no fears are entertained of its further spread, the only two existing cases are so far recovered as to be considered out of danger.—*Monroe Sent*.

An English paper mentions the case of a robber who committed suicide to avoid capture.—A woman, attracted by curiosity to behold the body, shrieked and fainted—it was her husband. The neighbors were sent for, and all recognized it as the body of her husband. It was carried to her house—at the threshold of the door, the corpse, the pallbearers, the weeping widow and neighbors met the husband alive and in perfect health!

Considerable excitement was caused on the fourth by the rumor that the order of know nothings would march in procession down the track of the Michigan Central railroad to the old depot. An anxious crowd of Irishmen and others lined the lake shore for some time, armed with shillabhis, but finally came to the conclusion that their informants knew nothing about it.—*Chicago Trib*.

CROPS IN DODGE COUNTY.—The Benver Dam Republican says that the crops, especially those of grain, look well in that vicinity, and promise an abundant yield. The only fear entertained is that the growth may be too large, causing the straw to lodge, diminishing the chances of the berry filling well, and increasing the labor of the harvest.

NEW YORK MONEY MARKET.—The Mirror, of Saturday, the 8th, reports the stock market as animated, prices 2 per cent. better, and no further failures reported. It adds:

"The tide has turned in Wall street; the breakers are passed, the clouds are clearing away, and there is now to be seen in the financial future naught but sunshine and clear weather."

"The bears are taking in their stocks freely, and the money market is letting up considerably. We may expect smooth water next week in all financial matters."

SUDDEN DEATH.—Thomas Dervin of Clyman, was on the 28th, ult., found dead in a field a short distance from home. The day before he went out to hunt cattle and not coming back search was made for him, and next day he was found dead as stated. It is supposed that he was attacked with an apoplectic fit or was sun-struck. His remains were brought here and interred in the catholic burial ground, followed by a large concourse of friends and neighbors. Mr. D. was about 60 years of age.—*Watertown Register*.

A certain fast man of this city sat up the other night all night enjoying a small game of "draw." As a matter of course, next morning he was tolerably sleepy, and while about half asleep at the breakfast table, the servant asked him what he would have. He put the table in a roar, by answering "three cards."—*Miss. Free Trader*.

"Too Old."—The Sunday Atlas, in a fit of revolutionary enthusiasm, says: "Hurrah for the girls of '76!" "Thunder!" cried a Jersey whig, "that's too old! No, no, hurrah for the girls of '17!" The New Jersey whig got all to shout with him, we are told, and the old women about his ears.

CONSOLIDATED DEBT OF PHILADELPHIA.—At a meeting of the city council of Philadelphia, a proper committee reported the debt of the consolidated city to be \$10,000,000. As an offset, however, the municipality owns some \$9,000,000 in railroad stock.

At a social party one evening, the question was put up, "what is religion?" "Religion," replied one of the party, "is an insurance against fire in the next world, for which honesty is the best policy."

A German emigrant remarks that a young girl is a fishing rod; the eyes are the hook, the sweet smile is the bait, the lover is the gudgeon, and marriage is the brier in which he is fished.

## GREAT SALE OF REAL ESTATE.

Rare Chance for Investment! 600 Village Lots!

SIX THOUSAND VILLAGE LOTS situated in "Hickory Glen," a beautiful country, in the city of Janesville, and located in the immediate vicinity of the Milwaukee and Mississippi railroad depot, in the city of Janesville.  
The above property is but a short distance from the present business center of the city, and is a most desirable village, and towards which, through the influence of the various railroads, in operation and projected, the business of the city is fast finding its way.  
It is unnecessary to speak of the peculiar advantages of an investment in a tract so centrally located, in the largest inland city in the State of Wisconsin—a city so widely known for its thrift and business prosperity, possessing extensive water-power and surrounded by the best farming country in the world—as every one will be ready to recognize the progress of western cities will see at once these advantages.  
The above property is offered at very low rates, and on the most favorable terms, particularly to those who wish to make immediate improvements on purchases.

Also, 1,000 Acres of the Best Improved Farming Lands, situated within a few miles of the city, which will be sold in lots to suit purchasers, from 40 to 320 acres. For particulars enquire of the undersigned at "Perry & Kimball's Hardware Store," or of Thomas S. Bell, at the City of Janesville.
